ABOUT ME

I am a motivated Full-Stack Developer with a strong interest in AI-driven applications. I enjoy creating practical, user-friendly web and mobile applications that combine functionality, usability and intelligent features, including machine learning and smart automation solutions. With strong attention to detail and a solid understanding of software development principles, I approach challenges thoughtfully. I thrive in collaborative environments, where I can contribute ideas, learn from others, and solve problems effectively. Always eager to grow and improve, I am committed to delivering high quality solutions that meet both user and business needs.

SKILLS

Frontend Development : React.js | Next.js | Flutter | Tailwind CSS | JavaScript | TypeScript | CSS
Backend Development : Python | .NET | Spring Boot | Node.js | Laravel | Django | Flask | Java | PHP | Go
UI/UX Design Tools : Figma | Canva | Stitch
Databases : MySQL | PostgreSQL | MongoDB | SQLite
AI /ML Engineering : TensorFlow | Keras | PyTorch | scikit-learn | RAG | LLMs | NLP | OpenCV
Computer Vision | Hugging Face Transformers | MCP (Model Context Protocol)
DevOps & Deployment : Docker | Kubernetes | Git | GitHub | CI/CD | AWS | Vercel | Netlify | Railway
Productivity Tools : VS Code | Colab | IntelliJ IDEA | Postman | FigJam | Antigravity | Cursor | Claude
Other Interests : Artificial Intelligence | Cybersecurity | Blockchain

EDUCATION

BSc. in Information Technology (Reading - Final Year)

Rajarata University of Sri Lanka

Sep 2022 – Present

PROJECT WORK

Class Pulse: AI-Powered Real Time Engagement System.

Developed a web-based real-time video conferencing learning analytics system for real-time engagement using K-Means clustering to classify student engagement and a rule-based engine to generate personalized feedback based on behavioural, performance and network data.

Tech: React 18, TypeScript, TailwindCSS, FastAPI, MongoDB, MySQL, Socket.IO, JWT, AWS, Zoom API

Deployment: AWS EC2, Vercel, Railway

Live Demo: <https://www.zoomlearningapp.de/login>

GitHub: https://github.com/WafryAhamed/FYP-Class_Pulse

FloodX7 : Intelligent Flood Disaster Management Platform

Developed a real-time AI-powered system for flood prediction, risk assessment, geospatial monitoring, and emergency response coordination using machine learning and GIS mapping, featuring interactive dashboards, citizen reporting and an AI assistant for crisis guidance.

Tech: React, FastAPI, PostgreSQL, PostGIS, Machine Learning, GIS Mapping

GitHub: <https://github.com/WafryAhamed/Flood-Prediction-System>

VOLUNTEER EXPERIENCE

Mentor - Hiking Club

Rajarata University of Sri Lanka

2025-2026

Marketing Director - Hiking Club

Rajarata University of Sri Lanka

2024-2025

Head of PR - English Club

Rajarata University of Sri Lanka

2024-2025

Volunteer - IEEE Student Branch

Rajarata University of Sri Lanka

2025-2026

Volunteer - ZeroPlastic

Rajarata University of Sri Lanka

2023-2026

Designer - AIESEC

Rajarata University of Sri Lanka

2024-2025

Ayurvedic Clinic Booking Application

Designed and developed a mobile full-stack application to digitize appointment scheduling for Ayurvedic wellness clinics

Tech: Flutter , ASP.NET Core Web API, PostgreSQL

GitHub: <https://github.com/WafryAhamed/Ayurvedic-Clinic-Booking-App>

ChefBuddy - Android Meal Planning Application

Developed an Android application to help users decide what to cook, search recipes by ingredients.

Tech: Java, SQLite

GitHub: <https://github.com/WafryAhamed/Daily-Food-Planner-Application>

RentRide - Microservices Based Vehicle Rental

Designed and developed a scalable vehicle rental platform using a microservices architecture .

Tech: Go , PostgreSQL, Flutter (Dart), JWT, WebSockets, REST APIs

GitHub: <https://github.com/WafryAhamed/RentRide>

ClinixPro - Clinic Appointment Booking System

Developed a production-ready full-stack web application for managing clinic appointments, designed for patients, doctors, and administrators.

Tech: React.js, Spring Boot, Java, MySQL

GitHub: <https://github.com/WafryAhamed/Doctor-appointment-booking-website>

Ceylon Craft - Full-Stack Web Application

Developed a modern full-stack web application using Laravel and Vue.js to deliver a dynamic and responsive user experience.

Tech: Laravel, Vue.js, JavaScript, CSS

GitHub: <https://github.com/WafryAhamed/Ceylon-Craft>

CERTIFICATIONS

Professional Certificate in Agile and SCRUM

Udemy | Dec 2025

Introduction to DevOps & Site Reliability Engineering

The Linux Foundation | Feb 2026

Python for Beginners

University of Moratuwa | Sep 2025

Flutter Masterclass

Udemy | Jan 2026

ACHIEVEMENTS AND AWARDS

Secured **1st Place** at the INSL North Central Provincial Competition 2025 as a member of Team TechSnatchers.

Secured **1st Place** at the RUSL XTREME Mini-Code Competition 2025 as the Team Leader of Team CodeNova7, Organized by the IEEE Student Branch of Rajarata University of Sri Lanka.

Awarded a **Merit Award** at the Designathon Contest - Codefest 2025, organized by SLIIT, representing Rajarata University of Sri Lanka as a Team Leader of Team InnoX7.

Participated in **UniHack 2025**, Sri Lanka's first inter-university blockchain hackathon, organized by Coin Ceylon in collaboration with the University of Kelaniya and Intersect Sri Lanka Hub

Secured **2nd Place** at the RUSL InnOrbit Project Carnival 2026 organized by the Department of Computing, Faculty of Applied Sciences, Rajarata University of Sri Lanka as part of Team Tech Snatchers.

Secured **2nd Place** at the RUSL XTREME 1.0 Mini Hackathon2024, a segment of the IEEE XTREME Programming Competition 18.0, organized by the IEEE Student Branch RUSL

Secured **2nd Place** in the Individual Front-End Development Competition (React.js), held under WebXplore and organized by the IEEE Student Branch of Rajarata University of Sri Lanka.

Secured 3rd Place in the Individual UI/UX Designing Competition, conducted under WebXplore and organized by the IEEE Student Branch of Rajarata University of Sri Lanka.

Finalist in the Beauty of Cloud Ideathon, Sri Lanka's first inter-university ideathon on cloud computing.

Participated in the CodeRally 6.0 24-Hour Coding Hackathon.
